Applicant: SAME AS MANUFACTURER
(728909-001)

Listee: SAME AS MANUFACTURER
(728909-001)

This Procedure authorizes the above manufacturer to use the marking specified by Underwriters Laboratories Inc. (UL), or any authorized licensee of UL, only on products covered by this Procedure, in accordance with the applicable UL Services Agreement.

The prescribed Mark or Marking shall be used only at the above manufacturing location on such products which comply with this Procedure and any other applicable requirements.

The Procedure contains information for the use of the above named Manufacturer and representatives of Underwriters Laboratories Inc. and is not to be used for any other purpose. It is lent to the Manufacturer with the understanding that it is not to be copied, either wholly or in part, and that it will be returned to Underwriters Laboratories Inc. (UL) or any authorized licensee of UL, upon request.

This PROCEDURE, and any subsequent revision, is the property of Underwriters Laboratories Inc. (UL) and the authorized licensee of UL and is not transferable.

Underwriters Laboratories Inc.

Stephen Hewson

Global Follow-Up Service Operations

William R. Carney
Director
North American Certification Program

Listing Mark Data Page

(FILE IMMEDIATELY AFTER AUTHORIZATION PAGE)

LISTING MARK

The Listing Mark consists of four elements placed in close proximity and shall appear on Listed products only. Minimum size is not specified, as long as the Listing Mark is legible. The following is suggested.

XXXX = The control number assigned by UL, 9N44.

The minimum height of the registered trademark symbol ® shall be 3/64 of an inch. When the overall diameter of the UL Mark is less than 3/8 of an inch, the trademark symbol may be omitted if it is not legible to the naked eye.

The product identity is: The appropriate product identities, as shown in the individual Listing. Also includes the appropriate rating of: "LEVEL 1", "LEVEL 2", "LEVEL 3", "LEVEL 4", "LEVEL 5", "LEVEL 6", "LEVEL 7", or "LEVEL 8".

For products that qualify for supplementary shotgun rating, the suffix "-SG" is included in the level marking.

The product identity may appear elsewhere on the product when the other three elements are directly and permanently applied to the product by stamping, molding, ink-stamping, silk screening or similar process or part of the nameplate which includes the rating or the catalog or model designation.

Separable Listing Mark (not part of a nameplate and in the form of decals, stickers or labels) will always include the four elements.

The manufacturer may reproduce the Mark or obtain it from a UL authorized supplier. The list of UL authorized label suppliers can be found on UL's online directory at www.ul.com.

GENERAL

PRODUCT COVERED:

Bullet-resisting devices, miscellaneous.

MARKING:

General - Each product is marked with the manufacturer's name, model designation and rating.

Date of Manufacture - Each product shall be marked with the date of manufacture. The date shall consist of the month or quarter and minimum last two digits of the year of manufacture, or equivalent.

Orientation Markings - All products shall be marked as to which direction they shall be installed when design or glazing material dictates.

(MULTIPLE) MANUFACTURING LOCATIONS:

The products in this Follow-Up Service Procedure are manufactured at more than one location. The Manufacturer's I.D. Marking shown below shall be marked on each unit to identify the unit as the product of a particular factory. Permanency of Marking is not required for the Manufacturer's ID Markings.
